

Elecstar Technologies

Dear Sirs,

Subject: Servicing/Installing/Supply of Medical Equipments
at a cost.....experienced never before!

We are a group of experienced Bio-Medical Engineers having worked with the leading Medical Equipment manufacturers of global repute.

We have come out of the plum positions of these MNCs and have started an outfit offering excellent services that are designed for the least "Down Time", better & less costly. Elecstar Technologies Pvt Ltd (an associate of Source Development International, USA) identified a market need for high quality medical equipment at affordable prices and supplied by a local company, who shall have an inventory of spares and support the client with Repairs, Refurbishing and Annual maintenance contract. We are established at Vijayawada, Hyderabad, Visakhapatnam AP India and now setting up branches in various parts of India & abroad.

We undertake AMC and Repairs of Medical equipment with respect to Radiology, Cardiology, Pathology, ICU Etc...

Our Major activities include Pre-owned Equipment Sales, Repair, Refurbishing and Reconstruction, AMC and Training. The range of equipment which we handle on daily basis are CT, MRI, Ultrasound, C-Arm, X-ray, Bone densitometers, Pulse oximeters, Defibrillator, Ventilators, Mammography, Cathlab, Film Processors, Dialysis, CSSD, CR, DR and many more.....

We are also in to repairs of Printed Circuit Boards and assemblies belonging to above mentioned equipment till Component level using sophisticated tools, Convectional and Conductional reworking tools and PCB testing software. This will help our clients to cut down their expenses on repair and maintenance up to 50% with lowest turnaround time and in par with OEM standards.

As a highly reliable service provider group, we assure a faster, accurate & timely service support with adequate inventory of spare parts & the modern test & measuring bio-med tools in the hands of experienced bio-medical engineers.

TRY US...YOU WILL HAVE YOUR MEDICAL EQUIPMENTS BEHAVE SMART!

Awaiting your response for a dialogue.

Thanks & Regards,

Dr.C.P.Kamle
